BEST CITYVIEW STAFFER YOU'D LIKE TO PUBLICLY FLOG

JARED CURTIS

Starting as a reporter in the summer of 2007, Jared Curtis unleashed his writing fury on the readers of *Cityview*. Things

The Des Moines Public Library was named Best Library by *Cityview* readers.

were looking up as he scoured the metro for the best bars and most entertaining theatre performances, but his love of pop culture kicked in and he continually hounded the higher-ups to include more entertainment columns. His boss agreed, and his ego shot through the roof as his weekly DVD column, featuring a new release and a classic film dubbed, "Curtis Classic," was born. As he walked around town spouting off about the best film of 2008 ("The Wrestler"), why "Temple Of Doom" is better

than "Raiders of the Lost Ark," his man-crush on Danny McBride and how the best bars in town are on Ingersoll Avenue, the backlash began and the admiration wore off. Even though he thinks of himself as "Des Moines version of Harry Knowles (Ain't It Cool News)," the truth is, his only similarity to the movie geek icon is his ever-expanding waistline. We don't need a so-called film "know it all" to tell us why we should watch a movie; we can read the back of the box.
